

Mobile & Offline-First

Built for African Connectivity

Install Solafide like a native app on any phone or desktop, and keep recording sales, attendance, and expenses even when the network drops. Everything syncs automatically the moment you're back online.

Key Features

- Installable Progressive Web App (PWA), no app store needed
- Employee self-service portal: payslips, leave, GPS clock-in, tasks
- Offline-tolerant data entry with automatic background sync
- Offline point-of-sale with bulk sync when reconnected
- Push notifications for approvals and alerts

Why Choose This

- Never lose a sale or clock-in to a dead connection
- Field and shop-floor staff stay productive anywhere
- No separate app install process for your team
