

Inventory Management

Real-Time Stock Control with Warehouse Intelligence

Solafide Accounting offers powerful yet easy-to-use inventory tracking for small and medium businesses in the OHADA zone. From barcode scanning and lot tracking to warehouse-level visibility and automated restocking, it gives you full control over your stock.

Key Features

- Barcode and QR code scanning
- Track items by batch, lot, and expiry date
- Manage multiple warehouses and locations
- Low-stock alerts and automated restocking logic
- Real-time stock level updates
- Supplier tracking and inventory valuation
- Inventory movement logs (stock in/out)
- Printable and exportable stock reports

Why Choose This

- Prevent stockouts and overstocking
- Stay compliant with expiry and batch tracking
- Centralize inventory across locations
- Save time with automation and barcode workflows
- Make smarter reordering and purchasing decisions
