

Solafide Feature Overview

AI-Powered, OHADA-Compliant ERP for African Businesses

Smart Accounting Assistant

Simplified Bookkeeping for Small Businesses

Solafide Accounting helps small and medium-sized businesses automate their daily bookkeeping. Enter transactions using plain English or French, and generate reports instantly. Ideal for business owners with limited accounting knowledge.

Key Features

- Simple transaction entry in plain language (English/French)
- Instant ledger and balance updates
- Built-in OHADA chart of accounts
- Real-time dashboards and profit tracking
- Smart categorization of income and expenses
- Automatic daily backups and secure cloud access

Why Choose This

- No accounting background needed
- Avoid costly bookkeeping errors
- Track your business performance in real time
- Focus on running your business, not on paperwork

OHADA Compliance

Built for Francophone Africa

Solafide is designed specifically for the OHADA legal environment. It ensures that all your accounts, reports, and operations align with regional laws and standards. No need to learn complex rules—it's all built in.

Key Features

- Official OHADA chart of accounts pre-configured
- Standard OHADA financial statements
- Regulatory tax and social contribution tracking
- Built-in audit trail for accountability
- Compliance alerts and deadline reminders
- Export-ready reports for tax offices and auditors

Why Choose This

- Peace of mind for business owners
- Zero guesswork on accounting rules
- Ready for audits and inspections anytime
- Confidence in compliance with regional law

Automated Financial Reports

Instant Reports for Smarter Decisions

Generate balance sheets, income statements, and cash flow reports with one click. No spreadsheets, no formulas—just clear, compliant, and up-to-date financial information.

Key Features

- Auto-generated income statements and balance sheets
- Cash flow tracking and monthly summaries
- Downloadable PDF reports
- Auto-updated with each transaction
- Filter by period, category, or customer
- Printer-friendly layouts for sharing or submission

Why Choose This

- Understand your business performance instantly
- Make informed decisions with real data
- Save hours on manual calculations
- Present clean reports to banks and partners

Simple Invoicing & Receipts

Track Sales and Get Paid Faster

Create professional invoices and receipts directly from your dashboard. Easily track who owes you, how much, and when they paid.

Key Features

- Generate invoices in seconds
- Printable and PDF-ready formats
- Track payments and outstanding balances
- Add customer info and notes
- Quick payment status updates

Why Choose This

- Improve cash flow management
- Avoid lost payments or forgotten debts
- Look professional to your clients
- Keep sales and income records organized

Inventory Management

Real-Time Stock Control with Warehouse Intelligence

Solafide Accounting offers powerful yet easy-to-use inventory tracking for small and medium businesses in the OHADA zone. From barcode scanning and lot tracking to warehouse-level visibility and automated restocking, it gives you full control over your stock.

Key Features

- Barcode and QR code scanning
- Track items by batch, lot, and expiry date
- Manage multiple warehouses and locations
- Low-stock alerts and automated restocking logic
- Real-time stock level updates
- Supplier tracking and inventory valuation
- Inventory movement logs (stock in/out)
- Printable and exportable stock reports

Why Choose This

- Prevent stockouts and overstocking
- Stay compliant with expiry and batch tracking
- Centralize inventory across locations
- Save time with automation and barcode workflows
- Make smarter reordering and purchasing decisions

Invoicing & Billing

Professional Billing & Payments

Create professional invoices, automate reminders, and track payments with ease.

Key Features

- Customizable invoice templates
- Automated payment reminders
- Multi-currency billing
- Payment tracking
- Recurring invoices
- Online payment integration
- Invoice approval workflow
- Tax calculations

Why Choose This

- Faster payment collection
- Professional appearance
- Automated follow-ups
- Better cash flow

POS Integration

Seamless Point-of-Sale

Connect your retail or hospitality POS for real-time sales, inventory sync, and payment processing.

Key Features

- Real-time sales data
- Payment processing
- Receipt generation
- Inventory sync
- Multi-location POS
- Customer loyalty
- Discounts and promotions
- POS hardware integration

Why Choose This

- Unified sales and inventory
- Faster checkout
- Better customer experience
- Accurate reporting

HR & Payroll Management

Complete Human Resource Solution

Comprehensive HRM with automated payroll, leave, compliance, and performance tracking.

Key Features

- Employee self-service portal
- Leave management system
- Payroll tax calculations
- Performance tracking
- Compliance reporting
- Time and attendance
- Benefits management
- Training records

Why Choose This

- Automated payroll processing
- Compliance with local laws
- Employee self-service
- Performance insights

Fixed Assets

Asset Tracking & Depreciation

Track, manage, and depreciate your fixed assets in compliance with OHADA and IFRS.

Key Features

- Asset register
- Depreciation schedules
- Asset tagging
- Maintenance tracking
- Disposal management
- Asset revaluation
- Location tracking
- Audit trail

Why Choose This

- Accurate asset records
- Automated depreciation
- Regulatory compliance
- Reduce asset loss

Procurement

Purchase & Supplier Management

Streamline purchasing, supplier management, and approvals for better cost control.

Key Features

- Purchase orders
- Supplier management
- Approval workflows
- Request for quotation
- Goods receipt
- Invoice matching
- Supplier performance
- Contract management

Why Choose This

- Reduce procurement costs
- Faster approvals
- Better supplier relationships
- Audit-ready records

Manufacturing

Production & Shop Floor

Plan, track, and optimize production with BOM, work orders, and shop floor control.

Key Features

- Bill of materials (BOM)
- Work orders
- Production planning
- Shop floor control
- Quality checks
- Material requirements planning
- Cost tracking
- Production analytics

Why Choose This

- Reduce production costs
- Improve quality
- On-time delivery
- Real-time visibility

Multi-Entity Management

Group & Subsidiary Control

Manage multiple companies, branches, and legal entities from a single platform.

Key Features

- Multi-company consolidation
- Intercompany transactions
- Branch management
- Entity-specific reporting
- Shared services
- Centralized chart of accounts
- Cross-entity permissions
- Regulatory compliance

Why Choose This

- Centralized control
- Consistent processes
- Easy consolidation
- Regulatory compliance

Localization & Multi-language

Built for Africa

Support for English, and French

Key Features

- English, French, and more
- Regional tax support
- OHADA and local compliance
- Multi-currency
- Date/number localization
- Customizable templates
- Local support
- African market focus

Why Choose This

- Easy adoption
- Regulatory compliance
- Serve diverse teams
- Better user experience

Audit Trail

Full Change History

Track every change for compliance, security, and peace of mind.

Key Features

- Change logs
- User activity tracking
- Data versioning
- Exportable audit reports
- Regulatory compliance
- Tamper detection
- Access logs
- Automated alerts

Why Choose This

- Full accountability
- Easier audits
- Security compliance
- Peace of mind

User Roles & Permissions

Granular Access Control

Control who can see and do what with advanced user roles and permissions.

Key Features

- Role-based access
- Custom permissions
- Approval workflows
- User groups
- Audit logs
- Temporary access
- Segregation of duties
- Multi-factor authentication

Why Choose This

- Better security
- Compliance
- Reduce errors
- Flexible team management

Notifications & Alerts

Stay Informed

Real-time notifications and alerts for important business events.

Key Features

- Email notifications
- SMS alerts
- Push notifications
- Custom triggers
- Approval alerts
- System warnings
- User reminders
- Mobile notifications

Why Choose This

- Never miss important events
- Faster response
- Better compliance
- Improved productivity

Training & Support

Comprehensive Learning & Help

Comprehensive training programs and 24/7 support in local languages.

Key Features

- Video tutorials
- Interactive training
- 24/7 support
- Local language support
- Knowledge base
- Live chat support
- Training certification
- On-site training

Why Choose This

- Faster adoption
- Better user experience
- Reduced support tickets
- Increased productivity

Mobile & Offline-First

Built for African Connectivity

Install Solafide like a native app on any phone or desktop, and keep recording sales, attendance, and expenses even when the network drops. Everything syncs automatically the moment you're back online.

Key Features

- Installable Progressive Web App (PWA), no app store needed
- Employee self-service portal: payslips, leave, GPS clock-in, tasks
- Offline-tolerant data entry with automatic background sync
- Offline point-of-sale with bulk sync when reconnected
- Push notifications for approvals and alerts

Why Choose This

- Never lose a sale or clock-in to a dead connection
- Field and shop-floor staff stay productive anywhere
- No separate app install process for your team
